Door hardware (accessories)

Door-lock NEMEF 1739/03

Housing material - steel
Two rails (radius - 12 mm)
Producing country: Netherlands

Upper lock Protect 257R

Three rails (diameter - 16 mm, radius - 34 mm)
Protective plate from drill
Appropriate plate
Keys - 5 pcs.
Producing country: China

Lower mortise lock Barrera 194

Three rails (diameter - 12 mm, radius - 215 mm)
Appropriate plate
Keys - 5 pcs.
Producing country: China

Lower mortise lock Kale 252RL

Three rails (diameter - 16 mm, radius - 36 mm)
Protective plate from drilling
Appropriate plate (color: chrome)
Producing country: Turkey

Upper lock Mottura 50798

Secrecy - 144,000 combinations
The diameter of the rails is 18 mm.
Radius of crossbars - 40 mm.
Keys with variable coding - 5 pcs.
Producing country: Italy

Fireresistance doorhandle NEMEF 2916

Internal plate material - steel
Material of outer plates and handles - plastic
Color - black / gray
Producing country: Netherlands

Doorhandle on rosette Trion polis

Material - CAM
Color - brass / chrome
Manufacturer: China

Upper lock Protect 1082

Three rails (diameter - 10 mm, radius - 22 mm)
Appropriate plate
Keys - 5 pcs.
Producing country: China

Upper lock Kale 257L

Three rails (diameter - 16 mm, radius - 36 mm)
Protective plate from drill
Eight privacy plates
Appropriate plate
Keys - 5 pcs.
Producing country: Turkey

Lower mortise lock Protect 252

Three rails (diameter - 16 mm, radius - 34 mm)
Appropriate plate (color: chrome)
Producing country: China

Lower lock Mottura 54797

Combined two-system lock of independent type
Four rails for hard lock (Diameter - 18 mm, radius - 40 mm)
One rail for cylinder lock (Diameter - 18 mm, radius - 22 mm)
Keys with variable coding - 5 pcs.
Producing country: Italy

Doorhandle on plank Cedar

Material - aluminum
Color - brass / nickel, or a combination of these colors
Producing country: China

Doorhandle on bar Ariko

Bar dimensions 230x46x12 mm,
Distance between mounting holes 205 mm
Fastening - Screeds
Producing country: Ukraine

Doorhandle Armadillo of Octan series

Material - CAM
Color - matt gold / gold and matte nickel / chrome
Producing country: Italy

Door hardware (accessories)

Doorhandle on rosette Trion AL

Material - aluminum
Manufacturer: Trion
Producing country: China

Doorhandle on rosette RDA

Color - chrome / matte black
Material - CAM
Producing country: China

Core Cedar 45/45 k/v

Color of the cylinder - nickel - satin
Keys - 5 pcs.
Producing country: China

Core Cometa 35/35 k/k

Material - brass
Color - brass / nickel
Keys - 5 pcs.
Producing country: China

Peephole Protect

Material - brass
Overview - 180°
Color - brass / nickel
Blind fits the peephole color
Producing country: China

Peephole Panoramic

Overview - 200°
Color - brass / nickel
Blind fits the peephole color
Optics from heavy-duty glass
Producing country: Italy

Office safe

Body - all-metal welded construction from cold-rolled sheet 1,8 mm, equipped with fastening elements in the bottom wall.

Door leaf - assembled structure, containing one steel sheet 4 mm thick. The door leaf is connected to the body with two inner hinges.

Type of coating - powder painting.

Design provides an internal compartment (tracer), equipped with a separate lock.

Locking system - two steel rails (diameter - 22 mm).

Door-locks:

safe chubb detector lock «KS - 206» (China);

safe chubb detector lock "Mauer" (Germany);

lock on tracer - "EMKA 7418" (Germany).

The bottom of the safe is covered with a carpet.

Depending on the modification, they are made as one- or two-doors, with or without tracers, with one or more adjustable shelves.

In addition, they can be equipped with a mechanical combination lock "La Gard" (USA), or electronic code lock "NL Lock EM 2025" and rail system.

Furniture safe

Body - all-metal welded construction from cold-rolled sheet 1,8 mm, equipped with fastening elements in the back wall.

Door leaf - assembled structure, containing two steel sheets 4 mm and 1 mm thick. The door leaf is connected to the body with two inner hinges.

Type of coating - powder painting.

Locking system - two steel rails (diameter - 22 mm).

Door-locks:

safe chubb detector lock «KS - 206» (China);

safe chubb detector lock "Mauer" (Germany);

The bottom of the safe is covered with a carpet.
It is made with tracer, with one adjustable shelf.

Wall safe

Body - all-metal welded construction from cold-rolled sheet 1,8 mm.

Door leaf - assembled structure, containing two steel sheets 4 mm thick with distance between them 1.5 mm. The door leaf is connected to the body with two inner hinges.

Type of coating - powder painting.

Locking system - two steel rails (diameter - 22 mm).

Door-locks:

safe chubb detector lock «KS - 206» (China);

safe chubb detector lock "Mauer" (Germany);

The bottom of the safe is covered with a carpet.

In addition, they can be equipped with a mechanical combination lock "La Gard" (USA), or electronic code lock "NL Lock EM 2025" and rail system.

Safe for weapons

Body - all-metal welded construction from cold-rolled sheet 1,8 mm, equipped with fastening elements in the bottom wall.

Door leaf - assembled structure, containing one steel sheet 5 mm thick. The door leaf is connected to the body with two inner hinges.

Type of coating - powder painting.

Design provides an internal compartment (tracer), equipped with a separate lock and lodgements.

Locking system - two steel rails (diameter - 22 mm).

Door-locks:

safe chubb detector lock «KS - 206» (China);

safe chubb detector lock "Mauer" (Germany);

lock on tracer - "EMKA 7418" (Germany).

The bottom of the safe is covered with a carpet.

Depending on the modification, we make them for 2, 3, 5 guns, with tracer or without it, with adjustable shelves or without them.

In addition, they can be equipped with a mechanical combination lock "La Gard" (USA), or electronic code lock "NL Lock EM 2025" and rail system.

For eight years Agatastal has been specialized in the manufacture of certified entrance doors and metal structures, and is the only company in the field that produces fireproof doors.

Modern equipment combined with the experience, knowledge and skills of the team makes it possible to produce competitive products that can satisfy the most demanding customers. Production increase and renewal of the model range is due to constant improvement and search for new ideas.

In order to meet modern standards in doors quality, Agatastal specialists carefully select raw materials, from which the products are manufactured. In accordance with the current regulations, the company uses only certified materials, which pass tests and strict control at all stages of production.

In addition to quality, Agatastal focuses on safety of its customers, treating this concept as a complex one. Due to this, the company uses high-quality hardware, in particular, burglar-resistant locks and antislashes.

Agatastal has an extensive sales network in Ukraine and abroad, which is aimed at maximum demand satisfaction.
